

FullStack | Software Engineer | Problem Solver | AI Agents

Karāchi, Sindh, Pakistan

Dynamic and impact-driven Full-Stack Software Engineer with a proven track record of engineering scalable web ecosystems, cross-platform mobile apps, and intelligent automation pipelines. Specialized in the MERN/Next.js stack, TypeScript, and React Native development. Adept at leveraging modern AI models to architect autonomous business solutions—such as zero-human-intervention AI commerce agents. Recognized for combining deep frontend expertise with robust backend logic and Linux debugging to deliver secure, high-performance applications in agile environments.

FullStackEngineer (Onsite) Nov/2025 - Present
Soft Sync Dev Present Karachi, Pakistan

- Architected and deployed an AI-powered WhatsApp Commerce Agent using Python, OpenRouter APIs, and Meta WhatsApp Business Cloud API, enabling automated customer engagement and sales workflows.
- Developed and maintained webhook-based integrations to receive, process, and respond to WhatsApp messages in real time.
- Integrated LLM-powered conversational capabilities for product inquiries, recommendations, customer support, and order automation.
- Built scalable Python backend services and third-party API integrations while collaborating in an Agile environment to deliver secure, production-ready solutions.

FullStackEngineer (Remote)	Jan/2025 - Aug/2025
Wide Dimension	Present Karachi, Pakistan

- Developed and optimized the Wide Traders Shopify Mobile App using React Native CLI, TypeScript, and Zustand for efficient state management.
- Seamlessly integrated Shopify APIs and custom Shopify Checkout workflows to enhance the mobile e-commerce purchasing experience.
- Resolved critical backend and deployment bottlenecks across the MERN/Firebase stack, improving application load times and performance.

Frontend Engineer (Remote) May/2024 - July/2024
Clozer United Arab Emirates

- Crafted responsive and high-performance user interfaces for international clients (UAE) using React.js and modern UI libraries.
- Collaborated closely with backend engineers to consume RESTful APIs and handle complex data fetching states securely.
- Ensured pixel-perfect UI rendering and smooth cross-browser compatibility for core product modules.

Frontend Engineer (Onsite) March/2023 - April/2024
Angle Brackets Karachi, Pakistan

- Built and deployed highly optimized static and dynamic web architectures using Gatsby.js, Sanity CMS, and TailwindCSS.
- Leveraged Storybook to develop, test, and document reusable, isolated UI components, improving development velocity across the team.
- Managed automated frontend deployments and continuous integration workflows using Netlify and Vercel.

Bachelor of Science - BS, Computer Science (October 2023 - October 2027)
Virtual University, Pakistan

Intermediate, Business/Commerce, General · (April 2018 - April 2020)
Government Islamia Arts & Commerce College, Karachi

- **Languages:** JavaScript, TypeScript, Python, C++
- **Frontend:** React, Next.js, React Native, TailwindCSS, CSS
- **Backend:** Node.js, Express, MongoDB, Firebase
- **DevOps:** Netlify, Vercel, GitHub Actions
- **AI Tools:** OpenAI API, GitHub Copilot, Claude
- **Tools:** Git, npm, Yarn, pnpm, Ubuntu
- **Concepts:** REST APIs, JWT Auth, CI/CD, Debugging, Agile

1. AI-Development

Built intelligent web apps and WhatsApp marketing agents using OpenAI and OpenRouter APIs with Firebase integration.

2. Production Bug Resolution

Diagnosed and fixed deployment issues on Vercel and Netlify, ensuring smooth rollouts and uptime.

3. Linux/Ubuntu Proficiency

Leveraged strong Ubuntu command-line skills for backend debugging, local server setup, and performance tuning.

4. Full-Stack Problem Solving

- Resolved critical issues across React, Node.js, and MongoDB stacks, improving system reliability.

Tools & Technologies

- **AI tools:** Github copilot , GLM 5.1, windsurf etc
- **Packages Manager:** NPM, yarn & pnpm
- **Deployment:** Netlify , Vercel and Firebase. **CI/CD & Devops:** Github Actions

Projects

- **Wide Traders Shopify Mobile App:**
